Firebase
GitHub
Figma

LANGUAGES

Arabic: Native
English: Intermediate

SOFT SKILLS

Problem Solving
Teamwork
Time Management
Communication
Attention to Detail
Self-Learning
Project Organization

PROFESSIONAL SUMMARY

Creative and detail-oriented Web and Mobile App Developer focused on building modern, responsive, and scalable digital solutions. Skilled in developing websites, mobile applications, admin dashboards, database-driven systems, and user-friendly interfaces. Passionate about clean code, strong performance, smooth user experience, and transforming ideas into practical digital products.

TECHNICAL SKILLS

HTML5 CSS3 JavaScript PHP Laravel MySQL
Flutter Dart Supabase Firebase GitHub VS Code
Figma UI/UX Design Responsive Web Design Backend Integration
Admin Dashboard Development Database Management

SELECTED PROJECTS

Medical Appointment Booking System

Complete medical appointment platform for patients, doctors, schedules, appointments, reports, and admin management through a professional dashboard.

Technologies: PHP, MySQL, HTML, CSS, JavaScript

CARBK Nutrition App

Mobile nutrition application for tracking meals, calories, food data, nutrition goals, and daily progress through a clean mobile interface.

Technologies: Flutter, Dart, Supabase

Food Delivery App

Food delivery mobile app concept covering restaurant browsing, customer flow, order management, delivery tracking, and system analysis.

Technologies: Flutter, Supabase, UML, System Analysis

Developer Value Proposition

I combine frontend design, backend logic, database structure, and dashboard control panels to deliver complete digital products that are practical, organized, and ready for future growth.

ADDITIONAL PROJECTS

Developer Portfolio CMS

Dynamic personal portfolio website built with PHP and MySQL, including an admin dashboard to manage hero content, about section, skills, services, projects, gallery, blog posts, and contact messages.

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Admin Dashboard

E-Commerce Java OOP Project

Simple e-commerce management system built using object-oriented programming concepts, including users, products, orders, payments, and admin operations.

Technologies: Java, OOP, NetBeans

EDUCATION

Bachelor's Degree

Information Technology / Computer Science

University details: To be added

TOOLS & WORKFLOW

- GitHub
- VS Code
- Figma
- XAMPP
- NetBeans
- Supabase Dashboard
- phpMyAdmin

CORE CAPABILITIES

Frontend Development

Build responsive, accessible, and visually consistent interfaces using HTML, CSS, JavaScript, and modern UI practices.

Backend & Database Systems

Create secure server-side logic, database structures, CRUD operations, authentication flows, and dashboard-based content management.

Mobile App Development

Design and develop modern mobile app interfaces and features using Flutter, Dart, Supabase, and Firebase integrations.

UI/UX & Product Thinking

Plan clean user flows, organized layouts, smooth navigation, and product experiences that are easy to understand and use.

TARGET ROLES

- Web Developer
- Mobile App Developer
- Full-Stack Developer
- PHP Developer
- Flutter Developer
- Admin Dashboard Developer
